

## Features and Benefits

### Built-In USB Print Server

Includes a USB port to connect to a USB printer and a Windows<sup>1</sup>-based print server software application, so users on the network can share the printer.

### Advanced Firewall Features

The Web-based user interface displays a number of advanced network management features including:

#### Content Filtering

Easily applied content filtering based on MAC Address, IP Address, URL and/or Domain Name.

#### Filter Scheduling

These filters can be scheduled to be active on certain days or for a duration of hours or minutes.

#### Network Address Translation

NAT prevents outside intruders from gaining access to your private network.

#### Secure Multiple/ Concurrent Sessions

The DI-704UP can pass through VPN sessions. It supports multiple and concurrent IPSec and PPTP sessions, so users behind the DI-704UP can securely access corporate networks.

### Built-In 4-Port Switch

Allows you to quickly and easily share an Internet connection with multiple computers and devices. Each 10/100 Ethernet port automatically senses and accepts the type of CAT 5 cable you attach — whether straight-through or cross-over.

### Simple Set-Up Wizard for Easy Installation

The D-Link setup wizard simplifies the installation process, getting you up and running in just a few clicks.

### Ethernet Cable Included

One Ethernet cable is included with the DI-704UP to get you started.

### DI-704UP

### 4-Port Ethernet Broadband Router with USB Print Server
