

Product Highlights

Transform Your Mobile Device Into a Baby Monitor

Whether you're at home or away at work, you can conveniently watch over your baby on your iPhone®, iPad®, or Android™ mobile device

Full-featured yet Simple to Use

The free mobile app gives you effortless access to advanced features like 2-way audio, notifications, lullabies, snapshots and video recording, and more

Perfect at Home or Away

Mount the camera in the nursery at home, or take it with you when going on a family trip; it's easy to keep an eye on your child no matter where you go

DCS-825L

Wi-Fi Baby Camera

Features

Camera

- HD resolution (1280 x 720)
- Night vision with infrared LEDs that turn on automatically when it gets dark
- 802.11n wireless lets you place the camera anywhere
- MicroSD/SDHC card slot for recording snapshots and video triggered by motion or sound
- Can be powered by an external USB battery¹
- 5 different gentle lullabies built-in
- Interchangeable accent color rings

Intelligent Baby Monitoring

- Sound detection alerts you to loud noises, such as a baby crying
- Temperature sensor and indicator light informs you if the room becomes too hot or cold
- Motion detection lets you know if the camera detects movement
- Notifications can be sent to your mobile device for detected events
- Two-way audio lets you hear your baby and allows you to respond and calm your child

Convenient Control From Your Mobile Device

- Uses the free mydlink Baby app for iPhone, iPad, and Android devices
- The mydlink Baby app helps you set up your device and gives you easy access to all functions

Keep an eye on your little one with the DCS-825L Wi-Fi Baby Camera. This portable camera transforms your mobile device into a versatile, yet easy to use baby monitor. Connect to the camera wirelessly or through the Internet so you can check on your infant no matter where you are. It includes a wide array of features to help you care for your child, including motion, sound, and temperature monitoring help you watch over your child, as well as night vision, automatic snapshots and recording. It can even play gentle lullabies to help ease your baby to sleep!

Peace of Mind, Anywhere, Anytime

The Wi-Fi Baby Camera is specially designed to make it easy for you to care for your baby. You get a sharp 720p HD picture thanks to the megapixel camera sensor, and night vision mode turns on automatically when it gets dark, so you can monitor your child day or night. It's perfect for use in the home, or even when you're away; it's mydlink-enabled, which means that you can check on your baby remotely through the Internet.

Sophisticated Technology to Keep You Informed

The Wi-Fi Baby Camera can send you notifications to alert you to specific events. A temperature sensor constantly monitors the room temperature, and alerts you when the room becomes too hot or too cold to ensure that your child is safe and comfortable. It can also detect movement and loud noises such as crying, and this can trigger recording of snapshots and video clips that you can review later.

Perfectly Portable for Instant Monitoring Anywhere

You can take the Wi-Fi Baby Camera with you when traveling with your child, even when there is no available Internet connection. Just connect your mobile device to the Wi-Fi Baby Camera's wireless network for instant local monitoring, making it perfect for family vacations or just visiting friends. You can even connect it to an external USB battery¹ for total portability!

Super Simple to Use

Getting started is a snap; the free mydlink Baby app for iPhone, iPad, and Android mobile devices not only guides you step by step through the setup process, but also gives you an easy to use interface for all the advanced features of the Wi-Fi Baby Camera. Check on your baby at a glance, pinch to zoom in and out with ease, or play one of five gentle lullabies to soothe your child. You can even take snapshots and video clips and save them directly to your mobile device!
