Switch between computers quickly and easily using the buttons located on the front panel, keyboard hot keys or smart desktop controller.

Hot-plugging

You don't need to turn your computers off before installing the device.

DKVM-210H

2-Port KVM Switch with HDMI and USB Ports

Specifications

- HDMI & USB ports
- 2 connected PCs
- Switching between PCs with the buttons located on the front panel, keyboard hot keys or smart desktop controller
- Two USB Type-A ports for connecting external devices
- Hot-plugging
- Autoscan mode

The D-Link DKVM-210H 2-port KVM switch with HDMI and USB ports allows you to manage two computers with one monitor, one keyboard and one mouse. The DKVM-210H requires no driver installation and can function without external power adapter connection by powering from USB port of your PC (the power adapter¹ can be used when connecting external device, for example, USB-disk, to the USB Type-A port of the DKVM-210H). This KVM switch supports hot-plugging - you don't need to turn your computers off before installing the device. The DKVM-210H allows you to switch between computers quickly and easily using the buttons located on the front panel, keyboard hot keys or smart desktop controller. The DKVM-210H supports autoscan mode, which provides automatic switching to the next PC after the scan interval expires.

¹ Not included in the package contents.
