Problems Resolved:

1. Fixed WPS issue: unable to connect AP/Router by WPS after un-plug and plug-in dongle.

Enhancement:

1. Support Windows10 (x86 and x64)

2. Improve driver installation procedure: Double click "Setup.exe" and user can select

   "Upgrade" to replace existing driver or select "Remove" to remove the drivers from computer.

Known Issue:

In Windows10, if user frequently switch SSID between 2.4GHz and 5GHz, the transmit speed will limited to USB2.0 standard.
